MEMORANDUM FOR:

SUBJECT: Problems Concerning Special Intelligence
Close Support

STAT

1. During our recent discussions you indicated to me several
problems which relate to special intelligence close support for
our Project. It appears that these problems should be put in
written form and considered individually. It is therefore requested
that you write a memorandum through myself and [   ] to Mr.
Bissell. This memorandum should include as far as possible and
practicable under the circumstances as many facets of the various
problems as possible plus your recommendations for their solutions,
if you have such recommendations in mind. Although a due date of
10 February should not be considered completely binding, it would
be most appreciated if your memorandum could reach me by that date.

STAT

2. It is felt that after [   ] and Mr. Bissell examine
your memorandum, it would then be advisable for interested parties
to sit down and try to arrive at workable solutions.
